About the book

This book has been designed for all the students who are preparing for competitive exams in India. English is an integral part of these exams and synonyms and antonyms play an important role in the English section.

All the important synonyms and antonyms beginning from the basic to the highest have been covered in detail (alphabetically from A to Z) followed by 500 questions of synonyms and 500 questions of antonyms. These 1000 questions also include previous year questions. Each question along with the four options has been explained in detail along with the Hindi meaning wherever necessary. In one question the student ends up learning five words. If the book is used sensibly by the student he will be able to cover 5000 words just through the MCQs which is sufficient to clear the competitive exams and score well in the synonyms and antonyms.

We hope the book will be highly beneficial to all the students. All the best.
